

# SUWANNEE RIVER NATIONAL WATER TRAIL

As an avid paddler and conservation supporter of Florida's outstanding waterways, I enthusiastically support efforts by the Department of Environmental Protection's Office of Greenways & Trails to apply for designation of the Suwannee River as a National Water Trail. Establishment of this NWT will extend the length of the iconic Suwannee River Wilderness Trail to include its origins within the Okefenokee National Wildlife Refuge and ending at the Gulf of Mexico, a total distance of 235 miles.
